

1. The url I am going to use (the thing I want to link to): [http://forums.nycmidnight.com/r1-g10-thriller-the-sanctuary-of-stonewall\\_topic12778.html](http://forums.nycmidnight.com/r1-g10-thriller-the-sanctuary-of-stonewall_topic12778.html)
2. The text that I want to be linked:

## [Master List]

Subject: Challenge One Stories [Master List]

Message Icon: None Selected

Message: **Group 9 [RomCom, Swimming Pool, Roadkill]**  
[Pool Proposal](#) [SargonDorsai](#)

**Group 10 [Thriller, National Monument, Shattered Mirror]**  
[The Girl On The Side](#) [queenofheimps](#)  
[The Sanctuary of Stonewall](#) [aprilxlytle](#)

**Group 11 [Political Staire, Zoo, Stolen Bicycle]**  
[Common Sense Solutions](#) [MattK](#)  
[Night Rendezvous](#) [Kaliban](#)

**Group 12 [Suspense, Plastic Surgery Center, Tire Iron]**  
[The Boob Job](#) [Scarlet](#) [Screenwriter](#)  
[Extinct Exploration](#) [Rasputin](#)

NoFollow is applied to all links from this forum

3. Select the text I want to be a part of the link:

Subject: Challenge One Stories [Master List]

Message Icon: None Selected

Message: **Group 9 [RomCom, Swimming Pool, Roadkill]**  
[Pool Proposal](#) [SargonDorsai](#)

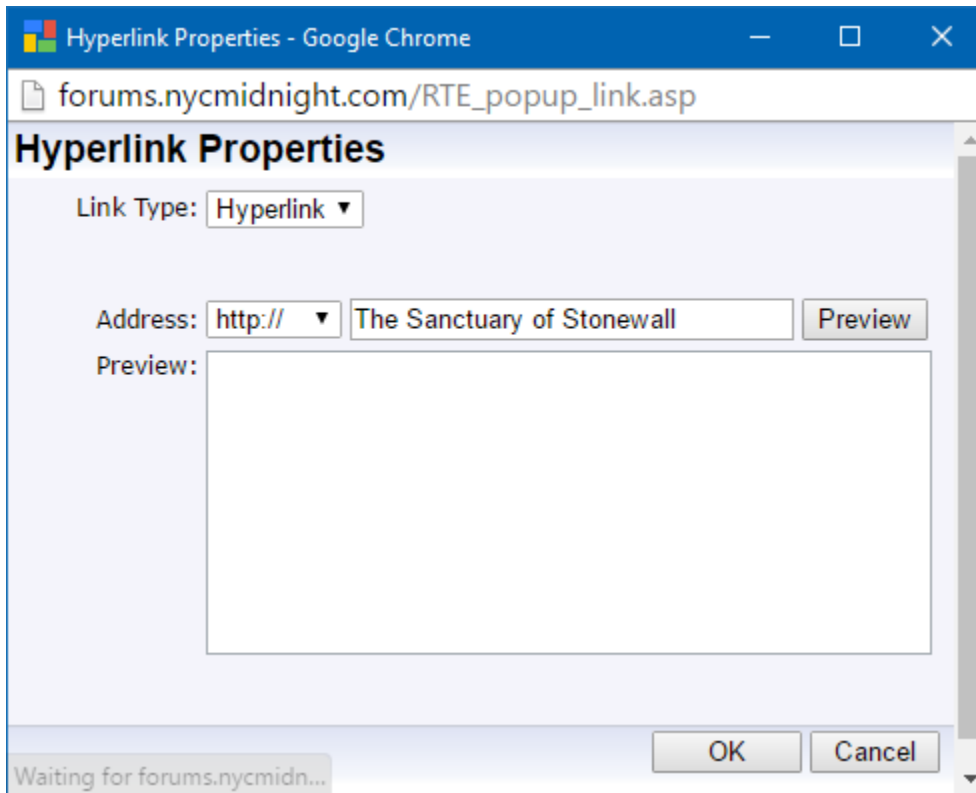

**Group 10 [Thriller, National Monument, Shattered Mirror]**  
[The Girl On The Side](#) [queenofheimps](#)  
[The Sanctuary of Stonewall](#) [aprilxlytle](#)

**Group 11 [Political Staire, Zoo, Stolen Bicycle]**  
[Common Sense Solutions](#) [MattK](#)

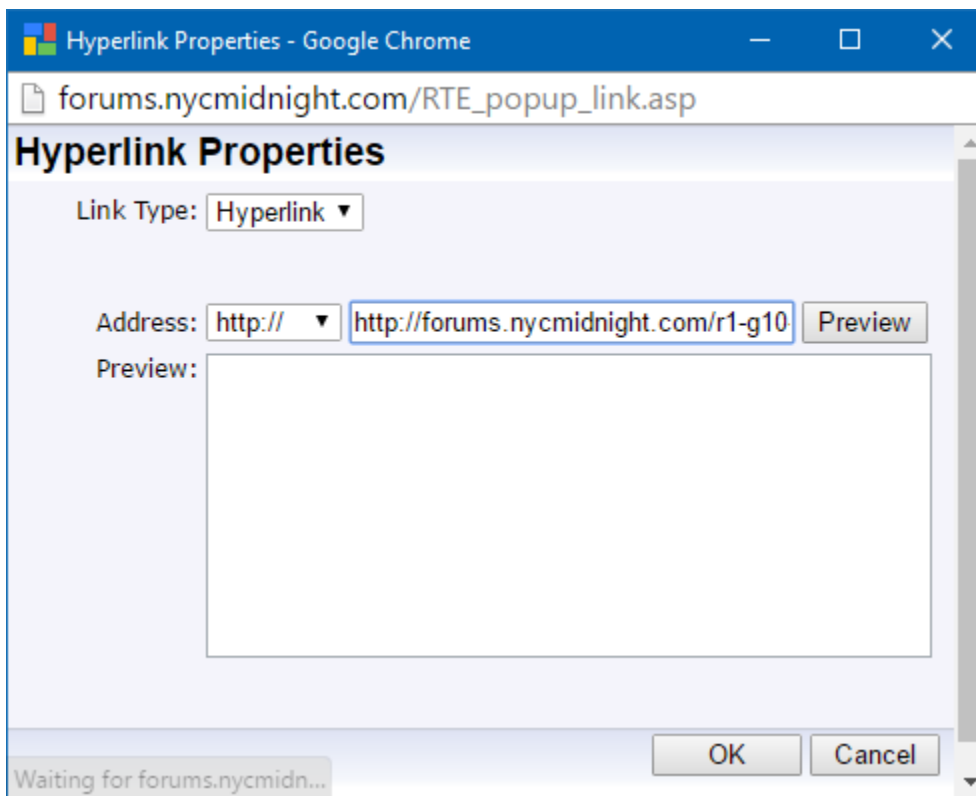

4. And I click the hyperlink button (5<sup>th</sup> button on the toolbar)

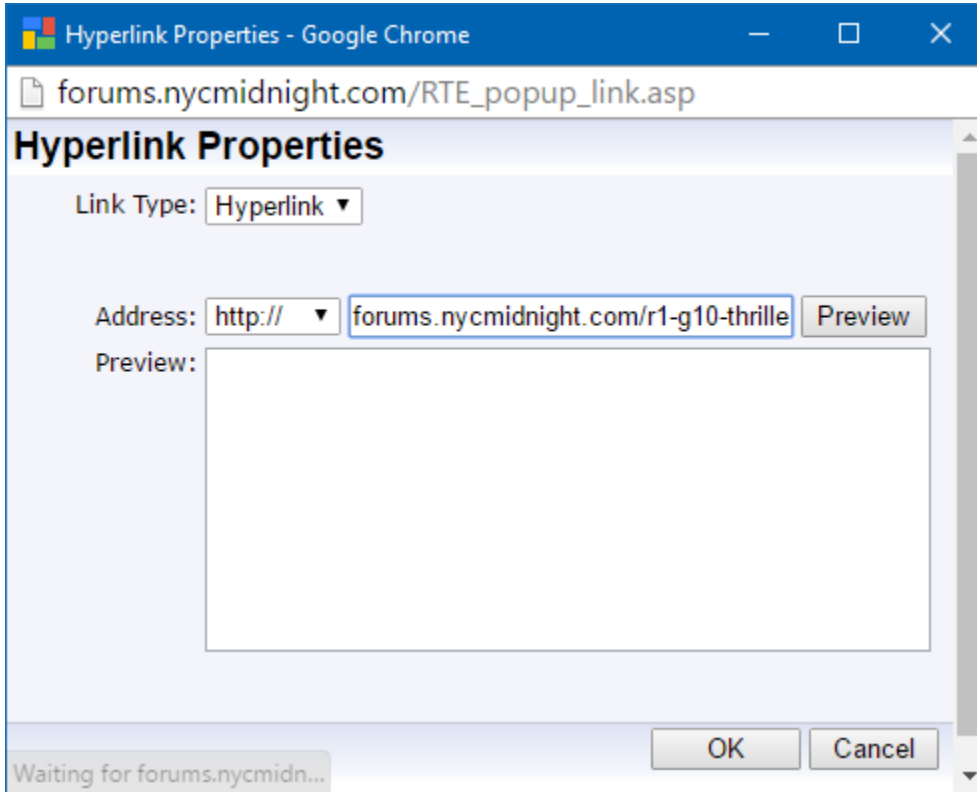

5. This box appears:

6. And I am going to replace the text in the third box with my url

making sure to remove the duplicate Http:// from the beginning before I click OK

And now – my text is linked. 😊
